THE EARTHQUAKE EMOTION.

Sticks to a Man.

It is a curious fact that the earthquake that there will be a revival of activity during scare is the one danger to which we can never become accustomed by familiarity. says the San Francisco Chronicle. The

> story told me by Col. Bailey Peyton, United States Minister to Chill in 1852 and City Attorney of Sau Francisco in 1836. To a party of friends in 1856 ne "Boys, it's no use talking; we can be-

> come accustomed to all dangers, no matter how imminent, by familiarity, except the danger of earthquakes. The more you feel 'em the more you don't like 'em,

you feel 'em the more you don't like 'em, and the worse you hate 'em. I have heard the whistle of bullets and the roar of cannon in battle, and never dodged.

But my experience in Chili took the starch out of me. I had been but a few days in Santiago, the capital of Chili, when I visited the leading store on the Plaza in that city. While standing behind the counter, in an instant, without any premonition, the proprietor and twenty clerks simultaneously leaped the counter and rushed out of the front door.

"I locked at them in astonishment and said to myself. Are they crazy? What's

"I looked at them in astonishment and said to myself. 'Are they crazy? What's the matter with them?' Slowly they returned to their places. I asked them what was the matter. They replied, 'El temblor! Didn't you feel the temblor?' To me it was a trifle.

"Two weeks la'er I was giving a swell dinner to the Diplomatic Corps in Santiago. In the midst of it came a temblor, a very lively one, and every man of the party leaged from his sent and rushed for the door or the window. I said to myself: 'Of all the cowards I ever met with thee-epeople exceed.'

"But boys. I hadn't been in that country more than three mouths before no quarter-horse in Temessee could beat me in a break for the door when one of these temblors made his appearance. You can
